Address: Nadda, Gulshan-1212, Dhaka, Bangladesh

A Civil Engineering graduate pursuing M.Sc. in Water Resources Development at IWMF, BUET, seeking a Civil Engineer position to apply technical knowledge in structural analysis and construction supervision. Skilled in AutoCAD, ETABS, ArcGIS, and project coordination with strong analytical and problem-solving abilities to contribute effectively to engineering projects and organizational growth.

EXPERIENCE

Site Engineer, Event Tech Builders & Engineers (Pvt.) Ltd.

Project Site : Saptapurna Abason, Puran Chandgaon

Duration : February, 2024 to March, 2024

Responsibilities –

Monitoring cast-in-situ pile construction activities and coordinating site operations to maintain project progress and safety compliance while preparing estimates for material quantity analysis.

EDUCATION

▪ M.Sc. (Water Resources Development) [Ongoing]

Institute of Water and Flood Management, BUET

CGPA: 3.00 on a scale of 4.00

▪ B.Sc. Engg. (Civil) [2020]

Sylhet Engineering College, SUST

CGPA: 3.40 on a scale of 4.00

THESIS

B.Sc. Engg. – *An Investigation of Geometrically Irregular RC Structure of Different Heights Considering Strong Column Weak Beam Concept for Sylhet Region by Non Linear Static Analysis.*

TECHNICAL SKILLS

ArcGIS	:	Analysis Tools, Data Management Tools
Google Earth Pro	:	Geospatial Analysis (<i>Ruler & Measurement Tools, GIS Import</i>)
Google Earth Engine (GEE)	:	Geospatial Functions (<i>Reducers, Digitization, Temporal Filters</i>)
ETABS	:	Pushover (<i>Non-Linear Static</i>) Analysis, Time-History Analysis
AutoCAD	:	Two-dimensional Technical Drawings
RockWorks	:	Borehole & Data Management (<i>Cross-Sections Diagrams</i>), Lithology and Stratigraphy Mapping
Python	:	RandomForest Algorithm, Machine Learning
Other Software	:	Word, Excel, PowerPoint
